

BRAIN INJURY SURVIVOR SERIES

Education • Support • Connection • Hope

Life after brain injury can be challenging.
You don't have to navigate it alone.

Join the Brain Injury Hope Foundation's (BIHF) monthly Zoom Survivor Series. Welcoming, interactive sessions created to help you navigate everyday life after brain injury and discover practical ways to live better. Each month, we explore real-life challenges, useful strategies, and resources that can help you build on what's working, navigate what isn't, and move toward your definition of success. Whether you're living with brain injury, supporting someone you love, or serving the brain injury community professionally, there's a place for you here. We also welcome individuals, military/veterans, and family and friends affected by brain injury, stroke, Parkinson's, MS, post-traumatic stress, and other neurological conditions.

FEATURED SESSION

Brain Injury Treatment Panel #2: Specialists Who Are Making a Difference

REGISTER TODAY!

We are fortunate to have Dr. Lisa Roeske Anderson and Dr. Cristen Welle from CU Anschutz, as well as Carly Rossi from Common Spirit. They will discuss their areas of expertise with us as it relates to brain injury and strokes. They are truly Specialists who are making a difference!

DONORS

Help keep BIHF and the Survivor Series going!

Your donations, sponsorships, grants, and community partnerships make these free programs possible. Please consider supporting BIHF today or connecting us with someone who can help.

Thank you to our generous BIHF community for making a difference!
